PRINCE ALBERT, SEPT. 29, 1893.

Manitoba and the North-West Territories may this year be looked on as especially favored in the crop season just closed. Drought and heat combined have practically ruined the crops of western Kansas. England, after the finest and earliest of opening seasons in living man's memory, has suffered terribly from heat and drought, in the south-eastern counties especially, and crop losses there are reckoned by many millions sterling. The north of France and south of Germany have had similar weather conditions to contend with. Poland has been visited with hail stones and floods to an unusual extent. Spain reports a still more severe heat-wave; the thermometer at Madrid recently registered 112° in the shade, and the temperature on the ground exposed to the sun was 122°. The drought in this country is unprecedented. There is not sufficient water in the Elbe to drive the mill or to provide for irrigation, while the Tago is fordable below Toledo. In certain districts in Aragon whole herds of cattle are certain to perish unless rain falls soon. Extensive tracts of forest and mountain pastures have been burned up, owing, it is believed, to the spontaneous ignition of the grass and other substances through excessive heat and prolonged drought. The season, though late, has been, in all but the south-west and a few spots in Manitoba, ideally perfect and a finer harvest season could not be wished.

Speaking at Victoria, B.C., the other day, Mr. Bowell, the Dominion Minister of Trade and Commerce, who has gone on a trade mission to Australia, said:—"If frozen mutton is to be imported the duty will have to be lowered." No doubt, but if the duty is lowered and the protective tariff which now favors the sheep growers is removed, corresponding reductions must be made on manufacturing articles which the farmer has to buy. There is no pressing necessity for the encouragement of the Australian frozen trade further than to help the new line of steamers between Vancouver and New Westminster, and if a reduction is made it should only be as part of a general reduction of all duties. Protection can not be removed from the farmer alone.

There are three candidates for the Lieutenant Governorship of Manitoba, A. W. Ross, M.P. for Liger; W. B. Searth, ex-M.P., and the present incumbent. Mr. Searth seems to be the most popular candidate, and will be likely to get the coveted honor. Mr. Searth's appointment would give general satisfaction to both political parties. He is a gentleman who is not only worthy of the position, but one whose appointment would reflect credit upon the Federal authorities at Ottawa.

Mr. W. F. Luxton, who for many years was the able editor-in-chief of the Winnipeg Free Press has retired. The Free Press under the able management of Mr. Luxton has risen to be one of the foremost papers in the Dominion of Canada. Mr. St. John, an eastern journalist, is likely to be appointed to the vacancy caused by the retirement of Mr. Luxton.

Mr. Gladstone and his Liberal predecessors are like their party leaders elsewhere. A thing which is bad when in Opposition is good when in power. So the Liberals in England have created nearly double the number of Peers since 1830 that the Conservatives have done. And now all the survivors—with one or two exceptions—have voted against Home Rule and a Liberal Government.

Sir John Thompson in his great speech at Montreal declared his adhesion to the National Policy, because Canada under that policy had prospered. He declared that the McKinley bill had been a benefit to Canada. That although a trade of \$5,000,000 had been lost with the United States a new market was opened by which Canada gained \$17,000,000 in trade with Great Britain.

Sensor Boyd of St. John, N.P. has been appointed Lieutenant Governor of New Brunswick. He succeeds Sir Leonard Tilley.

The Hon. Mr. Laurier, who has been stumping Ontario in the interests of the Liberal party, concluded his series of addresses at Owen Sound on the 22nd ult. All his meetings are said to have been largely attended.

The Soo Pacific line has at last been opened. Parties now wishing to visit the World's Fair from here will find the Soo-Pacific line the quickest and shortest route. It will now be in order for the C.P.R. to give reduced passenger rates to those wishing to visit the great Columbian Exposition.

THE BRITISH DELEGATES.

They Leave Prince Albert Thoroughly Satisfied with what they have Seen and Experienced.

The important delegation of British tenant farmers, which had been for some time expected arrived in town on the morning of the 23rd instant, and were met at the railway station by Mayor Donaldson, Judge McGuire, Mr. John McTaggart, Agent of Dominion Lands, Dr. Bain, Mr. J. F. Betts, M.L.A., Mr. John Stewart, Mr. D. C. McLean, Mr. S. McLeod and a number of other leading citizens of the town. A detachment of N.-W.M. Police which were in waiting conveyed them to the Queen's Hotel, where every preparation was made for the reception.

In the afternoon they were driven around in conveyances kindly furnished by Mayor Cotton of the N.W.M.P. through St. Catherine's, the Ridge and to Red Deer Hill under the guidance of the Agent of Dominion Lands, Judge McGuire and Dr. Bain.

They were highly pleased with what they saw on this trip. The crops, and the fine condition of the cattle feeding on the luxuriant grasses bore ample testimony to the fertility of the soil. The panoramic view from the summit of Red Deer Hill, alone, was a sight they would not like to have missed.

On Sunday after church, the delegation were the guests of Mayor Cotton, who took them over the Barrack quarters. They were also entertained there by many a personal reminiscence by the gallant Major.

Early on Monday the party divided—the majority being taken for a camping trip to the distant vast home-stead lands between the South Saskatchewan and Carrot Rivers, accompanied by a detachment of Mounted Police. This trip was in our opinion wisely arranged for them by Mr. McTaggart, Dominion Lands Agent here, and Mr. G. J. Cox, of the Dominion Lands Office, Winnipeg, who is in charge of the delegation (and a better man for the job than would be hard to find)—for in conversation with the delegates it was clear that they were concerned in ascertaining what vacant lands were immediately available for homestead settlement. Considering that these gentlemen have not been used to this kind of work, it will serve to show what practical and hardworking men the present delegation is composed of. So far as time permitted, a most thorough examination of this splendid district was made and the delegation returned on the evening of the following day full of health and spirits from their brief camping experience, much pleased with what they had seen and the fine country they had visited.

On Wednesday, after being hospitably received at his residence by Mr. D. H. Macdowell, M.P., the delegation were entertained at dinner at the Queen's Hotel by the Mayor, Mr. Macdowell, M.P., and the citizens of Prince Albert.

The dinner over, Mr. Macdowell, in a neat and complimentary speech, expressed the great pleasure felt by the people of the town and district at the welcome visit to the beautiful district on the Saskatchewan of such practical and intelligent representatives of the tenant farmers of the old land, who could see with their own eyes the capabilities and natural advantages that this great country offers, and particularly this portion of it for happy homes to their overcrowded fellow-countrymen at home.

Mr. Macdowell's address was ably responded to by Messrs. J. J. Garry, B. Waddington, J. Stevens and A. Fraser—members of the delegation, who severally thanked Mr. Macdowell and the citizens of Prince Albert for their words of welcome and kind hospitality—with all of which they were impressed deeply. They heartily endorsed all that was said by Mr. Macdowell in commendation of this district, which they admitted was superior to any other part of the North-West they had visited. While its natural advantages in respect of wood, water and hay, as well as those afforded by such magnificent waterways as the North and South branches of the Great Saskatchewan River—the largest river they had seen since leaving the St. Lawrence—which render it peculiarly acceptable to immigrants from the British Isles.

A capital address was then given by Mr. Justice McGuire, which we regret he was unable to report at length. Among the many good things said by him we might refer to the effective reply made by him to the so-called disadvantage of climatic severity. After referring to the exceedingly few cases of suffering from frost bites, instancing his own case although travelling hundreds of miles in the very dead of winter he had not experienced a frost bite.

His Honor showed that the severity of our winters was a decided advantage instead of a disadvantage. Its atmosphere was healthy; bracing and exhilarating, and capable of producing more hardy and vigorous manhood than sunnier climates—instancing the superiority and vigor of the northman to the more indolent inhabitants of sunny Italy.

Mr. Betts, M.L.A., followed in an appropriate speech, expressing the pleasure

afforded him at being present in extending a hearty welcome to this important delegation.

After a few words from Mayor Donaldson, the pleasant gathering came to a close and the delegates left on the evening train bound for the Pacific Coast.

We may add that we are distinctly of the opinion that this is about the most practical and level-headed delegation which has ever visited Prince Albert. The clear insight possessed by some of these gentlemen as to the many matters of necessity to a new land, new and strange to them, as they are, is remarkable. The Department of the Interior, and the town and district of Prince Albert alike are to be congratulated on this visit and the wise selection made of men who are capable of seeing with understanding what this country is capable of in ameliorating the lot of many men in their native land in whose interests they are here and whose happiness and future comfort and prosperity they have at heart.

Kinistino Lodge, A. F. and A. M. had an official visit from Grand Master Guggin on Tuesday evening last. The fine and spacious Masonic Hall was filled with members of the order. Mr. Guggin delivered an excellent address of over an hour's duration. After the Lodge adjourned, the members adjourned to the Queen's Hotel where between 40 and 50 sat down to an excellent repast prepared by mine host Oram. Among the visiting brethren who sat down to the table were three of the British delegates. After the removal of the cloth, a pleasant time was spent with toasts, songs, and songs, "the hour beyond this" having gone before the company separated.

On Saturday evening last while Mr. G. C. Macleod was leading a horse down the bank of the river for the purpose of giving him a drink he slipped and fell over the edge of the road, which had been built up at this point, and broke his leg in two places. The fall was such a simple one that Mr. Macleod did not at first realize that anything was wrong, and attempted to proceed with the horse, he still having the latter shank in his hand. The first step, however, showed him that his left leg was broken and he called for help. He was taken to a room in the American, where Dr. Isaac reduced the fracture, and he is now doing as well as can be expected under the circumstances. The members of Kinistino Lodge, A. F. and A. M., of which Mac is a member, are attending to the wants of their injured brother.

Mr. Guggin, the gentleman who has been put in charge of the educational affairs of the North West, paid our town a visit Saturday last. Mr. Guggin spent a couple of days this week in visiting the Union School, and seeing for himself the work carried on in each room. On meeting with the Board, Mr. Guggin expressed himself much pleased with what he had seen and heard during his visit. He gave the Board due credit for their efforts in trying to make the school what it is, and said that they were fortunate in their selection of teachers. As also said it was the only school in the Territories at which out door amusements in the shape of amusements, etc., had been provided for the pupils, and was pleased to see that so successful an attempt at tree planting had been made. Taken altogether Mr. Guggin's visit will be a beneficial one and we have no doubt that the Board and the teachers will reap the advantage of this visit in many useful hints and sound advice given.

The Manitoba Free Press in speaking of the Uxbridge Piano says—They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright Piano is thrown into the shade. The Uxbridge Piano has a continuous book rack which will be appreciated in the playing of Duet sitting down to the Piano a lever is touched by the performer and the keyboard is uncovered, and the hinge of the lid turns out of sight, and the instrument presents the same artistic appearance as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years, and require no special description as they are so well known and liked in the homes of the thousands over the whole world; however the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.
